

## Call for Applications: Grants for BA & MA Students at CITEC – Center of Excellence Winter 2012/13

Dear Students in Biology, Informatics, Linguistics, Mathematics, Psychology and Sports science, CITEC invites you to get practical experience in scientific work in the field of *cognitive interaction technology*. Therefore CITEC awards for winter term 2012/13

### **6 scholarships for students.**

These one-year grants are paid in total € 1.200 per person.

CITEC is a central scientific unit of Bielefeld University. In summer 2012 the German Research Foundation (DFG) positively evaluated CITEC's research program. Now CITEC starts for an other period of 5 years of funding. CITEC experts cooperate in divers research fields as e.g. biomechanics, developmental psychology, social robotics, cognitive psychology, neurobiology, neuroinformatics, or animal behaviour. Our interdisciplinary research activities, as well as the disciplinary ones in the relevant scientific communities, span all over the world.

The CITEC grants enable the choosen students to get instructions and profound insights from one CITEC researcher each, and to get involved in CITEC activities as lectures, workshops, and conferences.

As an applicant from a relevant BA or MA study program in Biology, Informatics, Linguistics, Mathematics, Psychology or Sports science, you have very good records, are interested in CITEC relevant research issues, good record of the English language, as well as a big interest in interdisciplinary research and international connections.

#### **Complete electronic applications (PDF format) include:**

- curriculum vitae
- cover letter/letter of motivation
- high-school diploma, university certificates including transcripts
- letter of recommendation of one of your lecturers

#### **Deadline for applications: Sun, 18 November 2012.**
